Stationary bicycle parking systems – Part 1: Requirements

This document is a convenience translation of the German original.
In case of discrepancy between the English and the German versions, the German version shall prevail.

Contents	Page
Foreword	4
Introduction	5
1 Scope	5
2 Normative references	5
3 Terms and definitions	6
4 Classification	7
5 List of significant hazards	7
6 General requirements	8
6.1 Materials	8
6.1.1 General	8
6.1.2 Flammability	8
6.1.3 Wood and wood-based products	8
6.1.4 Metals	9
6.1.5 Plastics	9
6.1.6 Hazardous substances	9
6.2 External design	9
6.3 Trapping hazards	10
6.3.1 General	10
6.3.2 Protection against trapping	10
6.4 Strength of the bicycle parking system	12
6.5 Stability of the bicycles in their parking position	12
6.6 Stability and position stability of the bicycle parking system	12
6.7 Side clearance and accessibility	12
6.7.1 General	12
6.7.2 Cycle locker requirements	13
6.7.3 Two-tier bike rack	13
6.8 Ease of parking	13
6.9 Protection from damage for the bicycle	14
6.10 Emergency opening and emergency ventilation	14
7 Specific requirements concerning bicycle parking systems for contract use	14
7.1 Perceptibility of vacant parking spaces	14

7.2	Protection against theft	15
7.2.1	General	15
7.2.2	Vandalism	15
7.2.3	Dismantlement	15
7.3	Stability	16
8	Electrical requirements	16
9	User information	16
10	Marking	17
11	Further user information on the bicycle parking system	17
	Bibliography	18
